

Download Instructions

Omni 3740
Omni 3750
Vx570

To perform a compliance update:

Please adjust tips if applicable and settle any open batch in the terminal to avoid deleting transactions.

If you are unsuccessful with your download, or have questions about these instructions, please contact us by calling 1-888.804.4222, and selecting the terminal help desk options.

1. Select “Credit/Debit” on the menu screen

2. Press the far left Purple “More” key directly above the number 1 key 2 times

3. Press the “F2” on the right hand side of the display to select “Other Setup.”

4. If prompted for a password, key in 998877 and press the green “Enter” key.

5. Press the far left Purple “More” key directly above the number 1 key 2 times

6. Press the “F3” on the right hand side of the display to select “Download.”

7. Press the “F2” on the right hand side of the display to select “Terminal.”

8. Press the “F2” on the right hand side of the display to select “Parm.”

Terminal will display “Dialing,” then “Transmitting,” then when connected a progress bar will appear like so:

For each 10% finished with the update, each dash will turn to a star like so:

***_-----

This process is approximately 4 minutes. When completed successfully, the terminal will display “Download Done.” At this point the terminal will reboot return to the main menu where we began. If anything else appears on the screen other than the above stated such as an error message, please contact the Terminal Helpdesk.
